

Info

Aesthetically fixing of balcony panels Fixing balcony panels efficiently and securely with the **BFS-SLEEVE** and the **BFS-NUT** systems

Setting new standards in safety and aesthetics: SFS intec balcony fastening system.

Technical information

- Head-Ø: screw = 16 mm / sleeve = 14 mm
- Clamping range: BFS-SLEEVE 21 – 75 mm
- Clamping range: BFS-NUT 7 – 61 mm
- Material: A2 stainless steel
- Drive: TXT20
- Approval: to German ETB guideline

Fixing balcony panels with the **BFS-SLEEVE** or **BFS-NUT**

Be on the safe side:

These new balcony panel fasteners from SFS intec set new standards in aesthetics and security.

Aesthetic

- The visible screw heads can be supplied in any colour to match the balcony panel colour
- Short lead time with the in-house speed-paint process
- Less fixing points compared to rivet fixing
- High quality powder coating for long-lasting aesthetic

Secure

- Tested and approved pullout and shear load values
- Large 16 mm head diameters minimise pullover risk
- Unwinding security thanks to the *spedcaps*® coating on the thread sleeves and nuts
- Corrosion-resistance A2 stainless steel material
- Tested and approved to German ETB guideline

The user is responsible to assure compliance with all applicable laws and regulations.

BFS-SLEEVE

Fastener + centring sleeve + threaded sleeve featuring *spedcaps*® coating

BFS-NUT

Fastener + self-adhesive polymer sealing washer + support washer + A4 spring washer + cap featuring *spedcaps*® coating

The details stated are results of tests and/or calculations and therefore are non-binding and do not represent guarantees or warranted characteristics for not specified applications. All calculations therefore have to be checked and approved by the responsible planner ahead of execution.
