

Rainscreen cladding:  
**3 new products for cladding professionals.**

# Professional installation of rainscreen cladding panels: 3 new products that make you more productive.

## Large-headed rivet in A4 high-grade steel: SSO-D15

**Your advantage:**  
**secure attachment, even in highly corrosive environments**

Application	Product	Order code Type HD Code	Clamping length KL	d x L	Application range
	<ul style="list-style-type: none"> <li>A4 high-grade stainless steel</li> </ul>	<b>SSO- D15- 50140</b> <b>SSO- D15- 50180</b> <b>SSO- D15- 50220</b>	6,0 - 9,5 9,0 -13,5 13,0-18,0	5,0x14,0 5,0x18,0 5,0x22,0	Head-Ø D: 15,0 mm  Pilot hole: Ø 5,1 mm

- Material: A4 high-grade stainless steel
- Suitable for high-grade steel and steel substructures
- Rivet head can be coloured individually

### Accessories

**Special stand-off nosepiece**  
for standard SSO-D15 blind rivets.

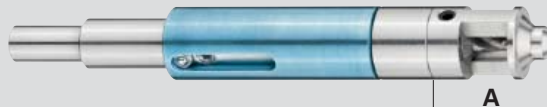

**AccuBird®**  
For standard blind rivets 2 - 5 mm.

## Drilling gauge

Order code: **DG-146x20**

**Your advantage: always precise, single-handed**

Self centering nosepiece with integrated bit for precise pre-drilling of the substructure.

- Interchangeable front section (A), adapted to the hole diameter in the cladding panels
- Integrated centred nosepiece
- Very convenient installation as a result of working single-handed

## Fixed-point sleeves

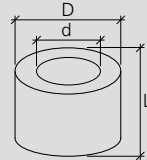

**Your advantage: flexible from start to finish!**

Order code: **FP-A-9,4 x 6**

- Uniform pilot drilling diameter for all pilot holes in a cladding panel
- Very flexible definition of the fixed points: can be done on-site
- Longevity of the fixed-point sleeves as a result of using aluminium

Material: Aluminium

Dimensions: L = 6,0 mm  
D = 9,4 mm  
d = 5,1 mm

Other dimensions are available on request

SFS has selectively expanded its extensive product range with the specific requirements of ventilated curtain walls in mind. Three new products enable cladding panels to be installed even faster into steel, high-grade steel or aluminium substructures.

You benefit from the following additional features with immediate effect:

- ✓ Enhanced quality of attachment
- ✓ Durable fastening solution for highly corrosive environments (rivet in A4 high-grade steel)
- ✓ Faster installation
- ✓ Trouble-free and easily

## Appropriate solutions for a wide variety of applications

SFS intec's fastening systems have been specially developed for the extensive application need which have been proven for many years within ventilated rainscreen systems.
